

# BUBBLE POUCHES

**Bubble pouches** are an ideal packaging aid to ensure the ultimate protection of packaged contents! They are custom made to your specifications both in dimension and bubble size. For those larger or more fragile items, heavy duty bubble is available upon request. A non woven polyethylene cloth can be laminated to the bubble providing for both tear and puncture resistance for extra strength and durability.

**Optional custom size lip with tape** – If taping down the lip is required preventing the item from slipping out of the pouch.

**Custom made sizes** allows you to design the bubble pouch that suits your needs perfectly.

**Protection** – Bubble size provides the required protective covering.

**Lightweight** – reduced shipping costs.

**Flat profile** – they take little storage space in your warehouse.

**Bubble Sizes** - 3/16", 5/16" & 1/2"

The pouches are perfect for protecting smaller, sensitive materials including but not limited to -

## Electronic products

- Laptops
- Circuit Boards
- Ink Cartridges
- Computer Towers

## Fragile products

- Lighting Fixtures
- Glass containers
- Picture Frames
- Cosmetic containers.

**Many other uses not specified. The possibilities are endless!**

**Anti –Static bubble pouches** available for electronic and similar products that are susceptible to damage by electrostatic discharge (ESD) while at the same time requiring cushioned protection for storage and shipping.

**Optional custom size lip with tape** – If taping down the lip is required to prevent the item slipping out of the pouch.

**Custom made sizes** allows you to design the bubble pouch that suits your needs perfectly.

**Lightweight** – reduces shipping costs.

**Flat Profile** – they take little storage space in your warehouse.
